

Test Catalog

Diagnostic. Prognostic. Predictive. Predisposition.

MDM2

Alternative Name

E3 ubiquitin ligase

Methodology

FISH

Test Description

Probes: MDM2 (12q15) | Centromere 12

Disease(s): Liposarcoma

Clinical Significance

This test detects amplifications of the MDM2 gene for classification of certain adipocytic tumors. MDM2 gene amplifications may appear microscopically as ring chromosomes, giant marker chromosomes, and double minutes. MDM2 amplifications are frequently detected in well-differentiated liposarcoma, which includes atypical lipomatous tumor (ALT/WDLS), and in dedifferentiated liposarcoma (DDLs). These tumors can be difficult to distinguish morphologically from other high-grade sarcomas and benign tumors. Amplifications are detected infrequently in other soft tissue sarcomas, and are not detected in benign lipomas. Drug targeting of MDM2 is an active area of clinical research.

Specimen Requirements

- **Bone marrow aspirate:** N/A
- **Peripheral blood:** N/A
- **Fluids:** N/A
- **Paraffin block:** Send paraffin block. Also send circled H&E slide for tech-only (required).
- **Cut slides:** H&E slide (required) plus 4 unstained slides cut at 4-5 microns. Circle H&E slide for tech-only.

Storage & Transportation

Use cold pack for transport. Make sure cold pack is not in direct contact with specimen.

CPT Code(s)*

88377x1 manual or 88374x1 automated.

New York Approved

Yes

NeoGenomics Laboratories is a specialized oncology reference laboratory providing the latest technologies, testing partnership opportunities, and interactive education to the oncology and pathology communities. We offer the complete spectrum of diagnostic services in molecular testing, FISH, cytogenetics, flow cytometry, and immunohistochemistry through our nation-wide network of CAP-accredited, CLIA-certified laboratories.

Committed to research as the means to improve patient care, we provide Pharma Services for pharmaceutical companies, in vitro diagnostic manufacturers, and academic scientist-clinicians. We promote joint publications with our client physicians. NeoGenomics welcomes your inquiries for collaborations. Please contact us for more information.
